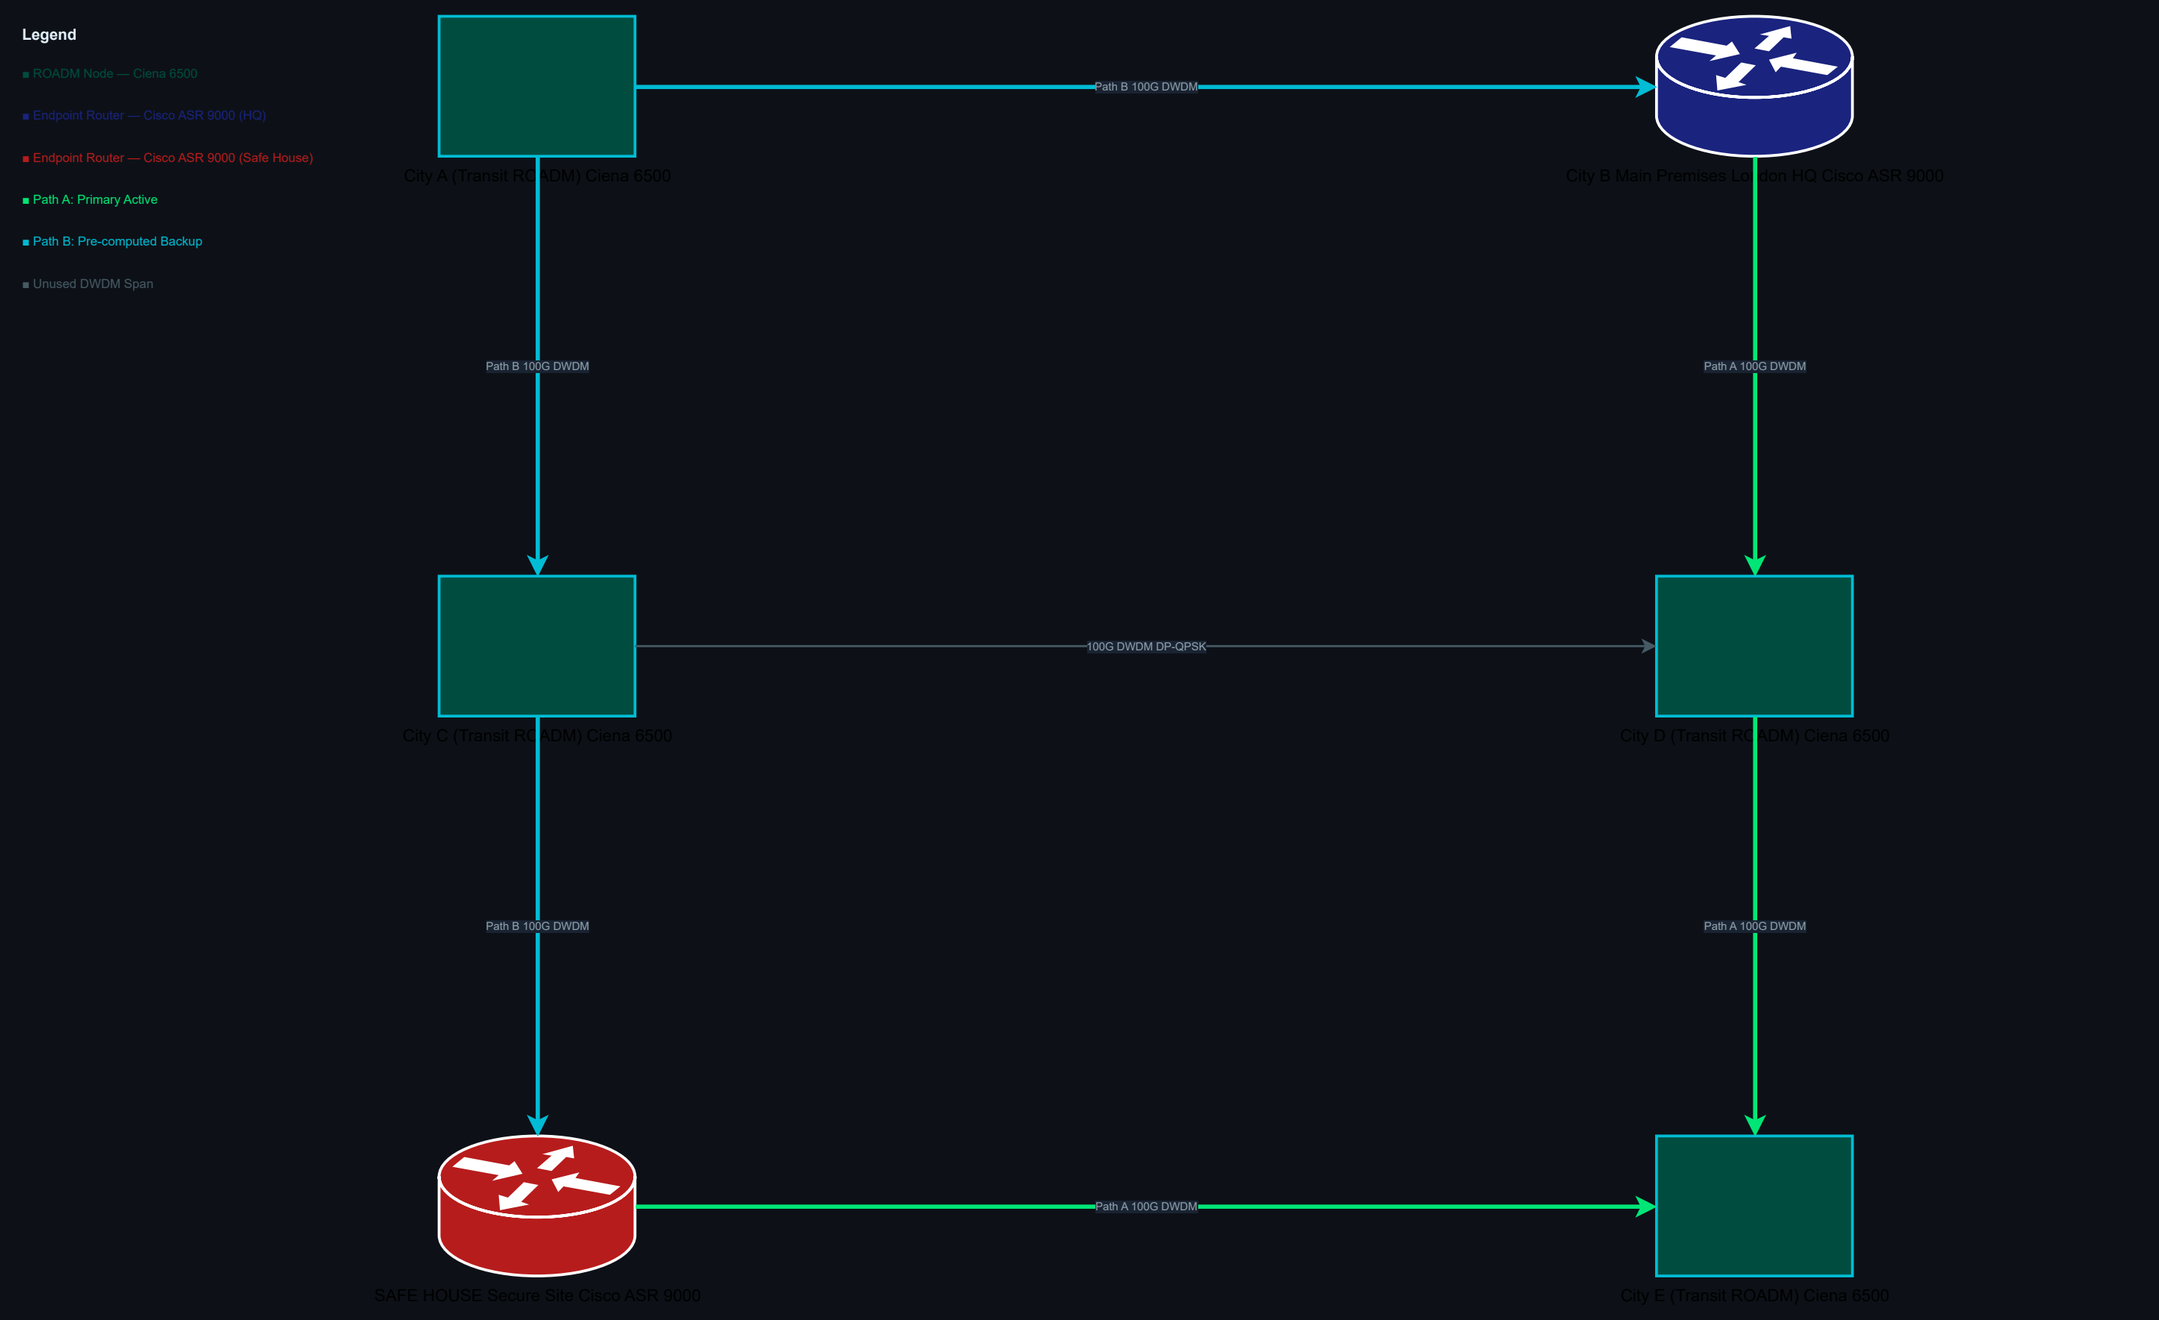
Safe House WAN — Logical Optical Network Diagram

100G DWDM Coherent Optical Grid | Ciena 6500 ROADM Nodes | Cisco ASR 9000 Routers



- **Path A (Primary Active): Safe House → City E → City D → London HQ**
- **Path B (Pre-computed Backup): Safe House → City C → City A → London HQ**

Optical Protection Switching: <50ms failover via GMPLS | ROADM wavelength rerouting — no service interruption
